FEATURES / BENEFITS

■ EFFICIENT REFRIGERATION SYSTEM

M3's solid door freezers are designed with oversized and balanced (CFC Free R404A) refrigeration systems. These include efficient evaporators and condensers for faster freezing and greater efficiency.

■ STAINLESS STEEL CABINET CONSTRUCTION

The Turbo Air M3 model boasts a stainless steel interior and exterior (except inside wall and the back). It guarantees the utmost in cleanliness and long product life. The M3 can add a touch of style to the most refined setting.

■ HIGH-DENSITY POLYURETHANE INSULATION

The entire cabinet structure and solid doors are formed-in-place using high density, CFC free polyurethane insulation.

■ ADJUSTABLE, HEAVY DUTY, PE(POLYETHYLENE) COATED WIRE SHELVES

■ ERGONOMICALLY DESIGNED DOORS

Customers' fatigue fades away with easy grip handles and doors that open effortlessly. These features along with self-closing doors make this the ultimate choice in customer convenience. ABS sheet door liners resist water condensation with thermal efficiency.

■ MAGNETIC DOOR GASKETS

Magnetic door gaskets are of one piece construction, removable without tools for ease of cleaning and replacement.

■ HOT GAS CONDENSATE SYSTEM

Through Turbo Air's creative innovation, the condensate system surfaces have been specially treated to resist corrosion. This not only increases efficiency without the risk of refrigerant leakage from corrosion, but also prevents the overflow of condensate water.

■ FREEZER HOLDS -5°F ~ -10°F FOR THE BEST IN FROZEN FOOD PRESERVATION
